

about the artist...

Collin Bogle

*I*n the fifteen years since he entered the art scene, award-winning artist Collin Bogle has created a national following for his strikingly realistic wildlife and floral images.

The son of a famous American artist, Collin learned the concepts of technique, composition and design from his father, later refining his skills and setting out on his own artistic path. His remarkable ability to capture detail and to master the use of light in natural settings became hallmarks of his work.

"Light plays a major role in my work," states the artist. "An abundance of light and shadows creates a playground for me and allows a painting to take on a life of its own.

The artist's paintings are not limited to any one subject or medium and demonstrate great flexibility and technical versatility. Bogle uses pastels, coloured pencils, watercolour, acrylics, whatever it takes to create the superbly lighted, realistic and almost photographic images that have gained him an impressive reputation and following.

Collin Bogle has exhibited in art shows throughout the United States and his originals are on display in prominent galleries nationwide.
