

How to Clean Your Pictures

by Picture This! Framing & Gallery

Washing the glass on your pictures:

Use a clean, soft, lint-free cloth to clean and dry the glass.

Spray an ammonia-free glass cleaner onto the cloth and wipe the glass.

It is recommended that the cleaner not be sprayed directly onto the glass as the cleaner could drip down into the edge of the frame and into the mat and the picture.

Cleaning your picture frames:

Again, use a clean, soft lint free cloth.

Wood Frames can be treated like Fine Furniture. Wash the frame using water on a damp cloth and then fine furniture polish can be applied.

It is recommended to spray the cloth not the frame to avoid water or furniture polish seeping into the edges of the picture frame.

Metal frames can be washed with warm water and a mild detergent then dried.

Again, spray the cloth not the frame.
